

ially containing Oxygen)
Phosphate
<u>Sulfate</u>
Carbonate
Chromate
Nitrate
Chlorate
Acetate(or <u>ethanoate</u>)

ONE extra oxygen	per		ate
ONE LESS oxygen			ite
TWO LESS oxygen	hypo		ite

Ternary Irregular Salts

(Irregular Polyatomics)

-A salt with a different number of oxygen present than normal.

-made from irregular acids

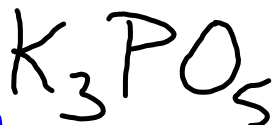

Regular

normally has 4 oxygen

potassium phosphate

Irregular

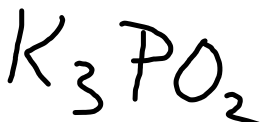

plus one oxygen

potassium perphosphate

minus one oxygen

potassium phosphite

minus two oxygen

potassium hypophosphite

potassium sulfate

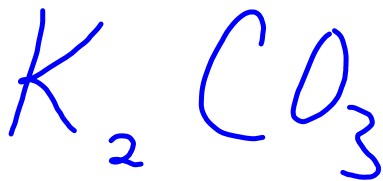

potassium persulfate

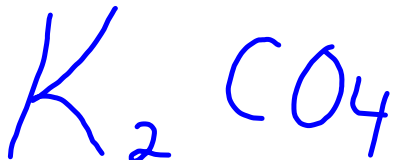

potassium sulfite

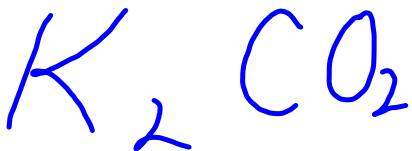

potassium hyposulfite

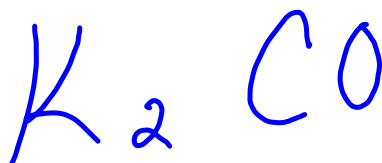

potassium carbonate

potassium percarbonate

potassium carbonite

potassium hypo
carbonite
